MFRS / IFRS Overview

An Overview and Analysis of the MFRS/IFRS

The principles of accounting standards are constantly evolving due to improvements, amendments and issuance of new Standards in order to account for the complex and diverse business environments. Keeping up to date with the practices of accounting Standards under this dynamic environment is a daunting task for every accountant in practice.

Designed specifically for all Finance Professionals, Audit Professionals, Members of Audit Committee, Finance Directors and Regulators. Those who are keen on attending a concise practical course that can comprehensively cover and/or provide a refresher of the principles of Standards, as well as a discussion on the potential changes and updates on the current Generally Accepted Accounting Practice are welcome to attend.
